**** Notice of Technical Visit****

**Title: Technical Visit to Smart Power Centre and Power Quality Centre of
Hongkong Electric Co Ltd on 17 May 2014 (Saturday)**

Smart Power Centre

Smart Power Centre adopts an interactive approach to promote a lower carbon lifestyle that reduces carbon footprint. The centre is equipped with various demonstration modules to explain the profound theories in simple language, introduce the application of energy-efficient electrical equipment/appliances and share with the visitors smart tips on safe and efficient use of electricity.

Power Quality Centre

Power Quality Centre enables customers to understand more about the phenomenon of power quality and ways to safeguard the power supplies for their important services in real life situations. The centre is equipped with a voltage dip generator and different mock-up installations to demonstrate the causes and effects of voltage dip and the mitigation measures against voltage dip and supply interruption for various apparatus.
